

GRANT WRITING + COACHING

Grants can be a terrific way to fund programs, projects, and equipment.

The key is to find foundations with interests that match your mission. It's not always easy to find and get grants, and we're here to help with that. We can significantly increase your chances of winning grants, gathering and submitting info so you don't have to worry about it.

HERE'S HOW IT WORKS

We start by conducting in-depth **research** to find the grant opportunities that are a hand-in-glove fit for your programs and projects. Once we've reviewed the research together and agreed on the grants to include in your **Deadline Calendar**, we'll work with you to get them written well and submitted on time.

We'll help you gather all the information needed and put it in the foundation's format. Plus, we'll make sure all your supporting documents are grant-ready so you'll never be scrambling to pull something together.

We don't just write grants – **we help you plan for success**. We'll coach you through the right approach for each grant to make sure you're putting yourself in alignment with the foundation's interests.

You won't have to worry about missing grant opportunities. With our help, your grants will be ready well ahead of time so you can put your best foot forward to get all the grant money you can.

WHAT YOU GET

- **Detailed research report**
- **Weekly check-in** call with progress updates
- **Final approval** on every grant before it's submitted and a **digital copy** for your records
- **1 or 2 grants** submitted each month (we value quality over quantity)

RESULTS

Over the past few years, we've gotten dozens of grants for many small nonprofits, bringing them thousands of dollars for operations, special projects, equipment/supplies, and capital needs.

Our success in getting grants is largely dependent on you: the quality of the information you provide us will ultimately be the determining factor in the strength of the proposal.

We can't guarantee we can get grants for you. But we can guarantee that we can put you in a strong position for success. There are many factors at play, including the foundation's interests, the amount of money they have to give, your history of program success, and our ability to tell your story in words and numbers.

YOUR INVESTMENT

Our fee for grant writing is \$1,200 per month for 12 months.

It's a simple and wise investment into the future of your organization, and really smart if you feel certain there are grants out there for you, but don't have time to go get them!

ABOUT OUR GRANT TEAM

Our staff grant experts, Susan Caldwell and Leah Holt, have a combined total of over 50 years of experience in researching, writing, and getting grants.

They've served on grant review panels and know what funders are looking for in a successful grant proposal. Both Susan and Leah have experience in getting grants for large organizations as well as helping small nonprofits get their first grant.

READY FOR NEXT STEPS?

Because of the depth of the service we provide, we have limited spots for grant writing clients. If you'd like to move forward, here's what your next steps look like:

- We'll draft a short **work agreement** and send to you for your review and signature.
- Once we get that back, we'll send you a **questionnaire** along with a list of things we need from you (wish list, program descriptions, etc.).
- We'll also send you an **invoice** (we take checks and all major credit cards) for the first month's payment.
- One of our team grant writers will conduct the **research**, which usually takes a week or so. They'll organize the information and send it to you electronically. Then, we'll get started writing grants for you!
