## Help Haystack, Polly & their shelter friends!

**Hi again from Haystack! I started my heartworm treatment while I wait to be adopted. My shelter friend Polly is also getting treated for her heartworms. We want to make sure people understand that heartworms are a serious issue but preventable and treatable!**

**Thanks to supporters like YOU we are able transfer heartworm positive dogs, from our rural shelter partners, to our shelter for treatment. Because of the growing population of heartworm positive dogs in shelters in East Tennessee, we created a**

### ***Heartworm Treatment Fund.***

**Your donation of \$150 will save a life and help make a wish come true for heartworm positive dogs like Haystack & Polly!**

## **Catching Up and Pupdates**

Each day at the Humane Society of the Tennessee Valley we fall in love with the animals we care for. We learn about their little quirks and attributes, both good and bad, because we want to find them the home that is the right fit. Then, when they find their forever home, we celebrate each Gotcha Day with fanfare!

We love to get updates from prior adopters and hope that you will consider emailing us a photo and short story update! Each week, in a special section of our e-blast, your story may be featured!

Please [click here](#) to send your photo and story to Gwen our Communications Manager!

**We invite you to drop by our Adoption Center located at [6717 Kingston Pike, Knoxville](#) to visit with our adoptable animals.**

## Adoptable Animals

Get zen with our kitties!

Susan Kohlstedt Photography

**Kitten  
Yoga**

**Hey kitty, kitty! We have a few spots left in our Kitten Yoga class.**

**Happening on Friday, March 29th from 5:30- 6:30 pm. Cost is \$30 and proceeds benefit the Humane Society of the Tennessee Valley. Register on our [website!](#)**

**Fun Fact:**

**The scientific name for a cat's hairball is “bezoar.”**
