

## Grant Research Services

Grant funding is a key part of fully funding your nonprofit's budget through diverse revenue streams.

Here at Get Fully Funded, we like to make sure you get all the grant money you can. That's one reason we offer grant research services.

Using tools like the Foundation Center's searchable database and some other proven tools, we scour the world of private and corporate foundations to find the best opportunities for your nonprofit.

### WHAT YOU GET

We'll do the heavy lifting for you, to turn over rocks and see what opportunities are out there for you. Once we're finished, we'll give you a detailed, written research report containing the pertinent information like:

- ✓ List of **HOT prospects** that you have a good shot at getting a grant from. This is not just a "warm" list of "maybes," but a list that we have looked deeply into and feel confident that you have a good shot at based on your mission, your needs, and your geographic location.
- ✓ **Contact info** for each foundation.
- ✓ **Details** for each foundation, including their philanthropic focus, application procedures, and key personnel and/or Board members.
- ✓ Our **specific recommendation** for how much you should ask for based on what else they've funded.
- ✓ **Deadlines** you need to know about like grant due dates, foundation Board meetings, and other pertinent dates for the coming year.

### HOW IT WORKS

After you sign up, you'll receive a questionnaire to complete to give us an idea of your programs, projects, and wish list for funding. Then we'll hit the research tools to see what we can find for you. Once our research is complete, we'll prepare your customized report then schedule a phone appointment to go over the report with you to give you any additional insight or special recommendations.

Once you have a chance to look over the report, we'll hop on the phone to talk through it. You'll hear the scoop on your new opportunities and you'll get a chance to ask questions. We can strategize your best opportunities so you're clear about your next steps of who to approach and what to ask for.

You'll receive your customized report digitally so that you can refer to again and again or share with others in your organization.

### **YOUR INVESTMENT**

Our fee for grant research is \$800. We ask that you make a \$200 deposit. The balance is due upon receipt of your research report.

It's a simple and wise investment into the future of your organization, and really smart if you feel certain there are grants out there for you, but don't have time to go find them!

### **GUARANTEE**

We can't guarantee that we'll find grant opportunities for you, but chances are high that we can. Typically, we find about 10 good potential foundation matches for the nonprofits we research for. At a minimum, you'll know what's out there for you and no longer have to wonder.

If you use the information we give you, you'll likely recoup your money (and much more!) within the year.

### **ABOUT OUR GRANT EXPERT**

Our staff grant expert, Leah Holt, has over 12 years of experience in researching, writing, and getting grants.

She's served on grant review panels and knows what funders are looking for in a successful grant proposal. Leah has experience in getting grants for both large and small nonprofits.

### **READY FOR NEXT STEPS?**

As you can imagine, our schedule stays pretty full. We have only a few openings each month, and they tend to go fast. If you'd like to move forward, here's what your next steps look like:

- We'll draft a **short work agreement** and send to you for your review and signature.
- Once we get that back, we'll send you a **questionnaire** along with a list of things we need from you (wish list, program descriptions, etc.).
- Once we're complete, we'll send you an **invoice** for payment (we take checks and all major credit cards).
